linea Solaria

Pannelli Bugnati

con **vetri** e **maioliche** decorati a mano

UNIprofil UNIVERSAL PROFILATI s.r.l.

BUGNATI SOLARIA “ITALIAN STYLE”

Il ricercato design che richiama nella bugna le antiche lavorazioni dei maestri artigiani del legno, uniti all’alta tecnologia, alla gamma vastissima di colorazioni ed alla eleganza delle maioloiche di Caltagirone, decorate a mano, fanno dei pannelli bugnati “Solaria” un prodotto unico che consente un armonico inserimento in ogni ambiente, sia classico che moderno.
L’alta qualità dei materiali impiegati, lamiera di alluminio 12/10 con verniciatura a polvere certificata, l’anima in MDF idrofugo di primissima scelta, garantiscono il massimo di affidabilità, risolvendo qualsiasi problema di manutenzione nel tempo.
L’arte ceramica, retaggio della dominazione araba in Sicilia, trova la sua culla naturale a Caltagirone, antico centro siciliano la cui storia è permeata dalla tradizione moresca. Per secoli i maestri calatini hanno sapientemente decorato ville, chiese e palazzi con manufatti di indiscussa bellezza. Ancora oggi gli antichi decori originali rivivono attraverso l’arte di maestri come Enzo Militello che “Solaria” Vi propone in questa linea di pannelli bugnati. Grazie ad un innovativo sistema di incastonatura delle maioliche al pannello, brevettato da Causarano, questi preziosi oggetti decorativi sono inseriti nella struttura senza alterarne la sicurezza e la funzionalità.

The ceramic art, heritage of the Arabic domination in Sicily, finds its natural crib in Caltagirone, ancient Sicilian center whose history is permeated of the sea-like tradition. For centuries the teachers of Caltagirone have skilfully decorated villas, churches and palaces with manufactured articles of undisputed beauty. Even today the ancient original decorum relive through the art of teachers like Enzo Militello and which “Solaria” proposes in this line of Bugnati panels. Thanks to an innovative system of setting the majolica to the panel, patented by Causarano, these precious decorative objects are inserted in the structure without altering the safety and the functionality.

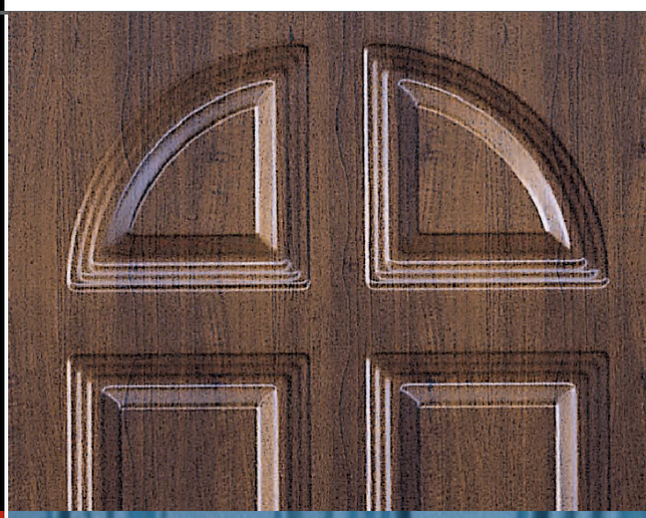
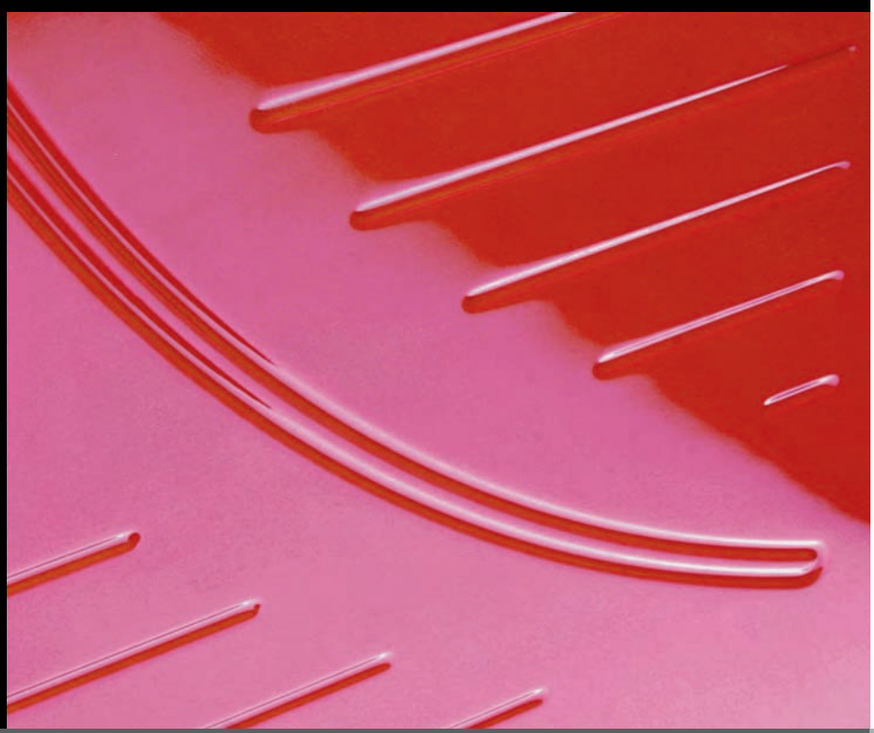
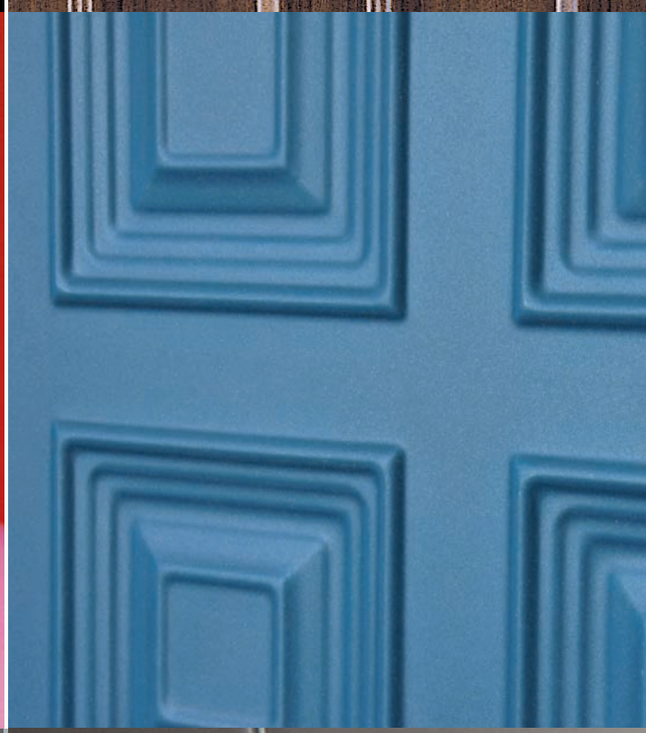
CASUAL - CLASSICO - MODERNO

tanti stili diversi per incontrare il tuo

L'esperienza ultra decennale, la continua ricerca e l'utilizzo di materiali e processi di lavorazione innovativi e certificati, fanno dei Pannelli Bugnati della Linea Solaria un prodotto unico in grado di garantire negli anni il massimo di affidabilità e durata, risolvendo qualsiasi problema di manutenzione.







La gamma dei Pannelli Bugnati SOLARIA, nasce dalla ricerca continua da parte dell'Azienda oltre che dagli standard qualitativi e tecnologici più avanzati, per seguire ed anticipare l'evolversi delle linee e dei gusti al fine di venire incontro alle esigenze di una sempre più vasta ed esigente clientela.

La Collezione "ITALIAN STYLE" esprime eleganza casual che richiama il classico ammiccando al moderno.

La Collezione "BAROCCO" propone le sinuosità e la ricchezza dei decori classici per uno stile ricercato.

La Collezione "IDEA" propone linee essenziali e pulite per una architettura moderna e minimalista.

CARATTERISTICHE TECNICHE DI ISOLAMENTO TERMICO

I pannelli bugnati della Linea “Solaria” sono stati sottoposti a prove di laboratorio da Istituto specializzato ed autorizzato per la determinazione della trasmittanza termica ai fini dell’isolamento termico degli edifici. Di seguito vengono riportati i risultati sulle diverse tipologie di pannelli.

PANNELLO SOLARIA MM900 X 2100 X 21 MDF

Lamiera Alluminio 12/10 - Mdf 18mm - Lamiera alluminio 12/10

TRASMITTANZA TERMICA UNITARIA **Up = 2,80 W/Mq k**

PANNELLO SOLARIA MM900 X 2100 X 30 SANDWICH

Lamiera Alluminio 12/10 - Mdf 5 mm - PUR BL35 18mm
Mdf 5 mm - Lamiera alluminio 12/10

TRASMITTANZA TERMICA UNITARIA **Up = 1,26 W/Mq k**

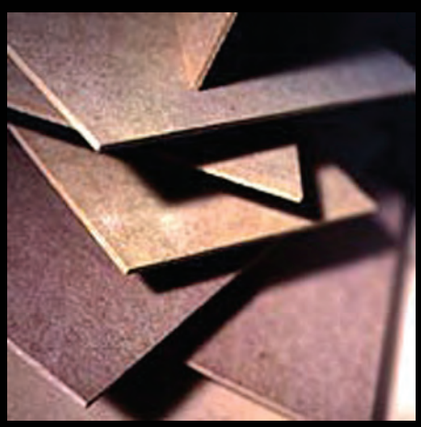
PANNELLI CON SUPPORTO IN MDF
PANELS WITH MDF SUPPORT



L'**MDF** (Medium Density Fiberboard) è un materiale a base di fibre di legno legate con particolari resine.
In particolare l'MDF utilizzato per i nostri pannelli, contrariamente al comune MDF è trattato con prodotti atti a renderlo "idrofugo" e quindi adatto ad essere utilizzato in ambienti esterni, garantendo nel tempo inalterabilità e stabilità.

PANNELLI ISOLANTI CON SUPPORTO IN PUR
PANELS WITH PUR INSULATION

Il **PUR** (poliuretano espanso rigido ad alta densità) è un materiale atto a garantire un ottimo isolamento termico ed acustico.

Queste caratteristiche, oltre alla leggerezza, la resistenza meccanica e l'inalterabilità nel tempo, fanno di questo materiale un prodotto innovativo al fine di garantire un eccezionale isolamento termico ed acustico del vostro Portone Bugnato "Linea Solaria".

CARATTERISTICHE TECNICHE PUR		PUR BL35
Resistenza alla compressione	Kg/cm.q	2,05+- 1
Coeff. Conduzione termica a 10	Kcal/hm°C a 60gg	0,023
Percentuale celle chiuse	%	94

* a richiesta anche spessore 21 mm.

PANNELLI CON PREDISPOSIZIONE VETRO spessore mm. 27

I pannelli Bugnati "Linea Solaria" grazie alla particolare lavorazione ed ad una innovativa cornice interna, consentono con una estrema facilità l'inserimento o la sostituzione di vetri nel pannello.
Infatti, una volta inserito il vetro nell'apposito alloggiamento predisposto in fase di stampaggio, lo stesso viene bloccato con degli appositi supporti e quindi, mediante una leggera pressione, si applica la cornice in alluminio su dei fissatori a strappo già predisposti.

Sezione vetri

Per pannelli da 27 mm.

Antisfondamento:
mm. 6/7

Film plastico:
mm. 0,38

Camera:
mm. 6,00

Vetro decorato:
mm. 4,00

Spessore totale del vetro:
mm. 17,00

TIPOLOGIA VETRI

A) Vetri decorati, realizzati a mano
mm. 4+6+4 = mm.14
(Pannello da mm.21)

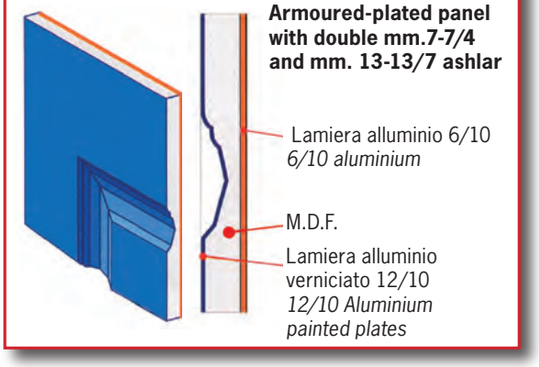
B) Vetri decorati, realizzati a mano con antisfondamento
mm. 6/7+6+4 = mm.17
(Pannello da mm.27)

C) Vetrofusione
mm. 4+6+8 = mm.18
(Pannello da mm.27)

RIVESTIMENTI PER PORTE BLINDATE

La gamma dei pannelli "Linea Solaria" si presta al rivestimento di qualsiasi porta Blindata in commercio.
I pannelli di rivestimento vengono realizzati con spessori che vanno da 4mm fino a 13 mm atti ad essere inseriti a carrello in tutte le porte blindate sia industriali che artigianali.

PANNELLO RIVESTIMENTO BLINDATO
inciso spessore mm.7-7/4 e mm. 13-13/7



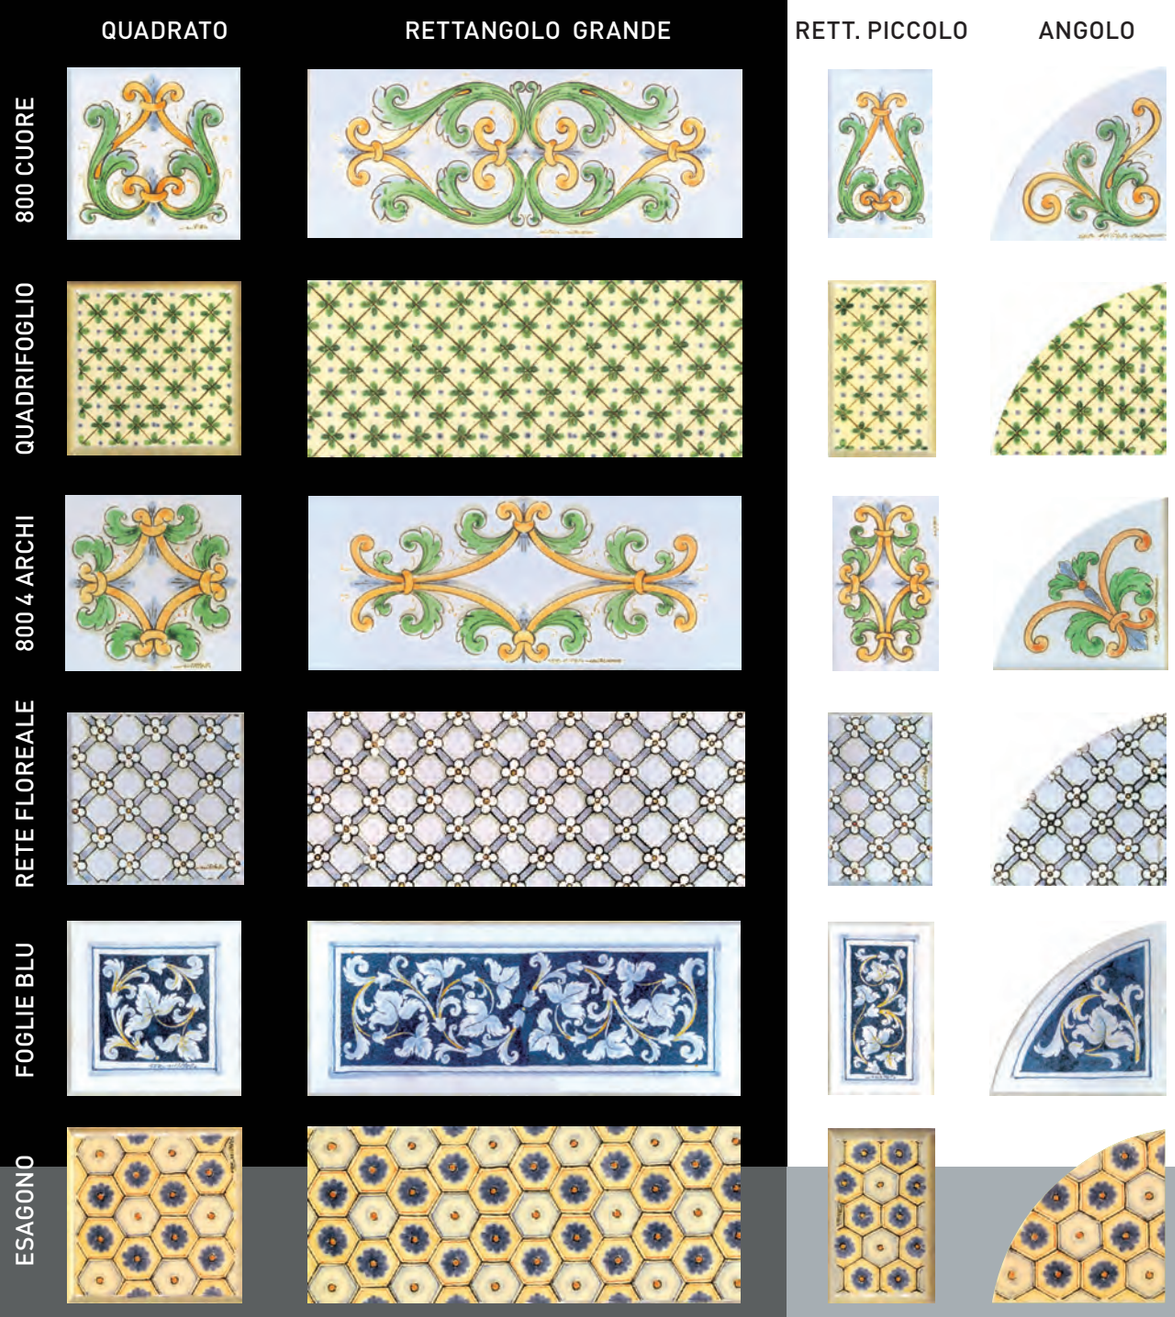
CARATTERISTICHE TECNICHE DI FINITURA

Tutta la gamma di pannelli della "Linea Solaria" è realizzata con lamiera di alluminio pretrattata da **12/10 di spessore**.

FINITURA LACCATE O SUBLIMATE
Le lamiere vengono verniciate con polveri e sistemi certificati atti a garantire le medesime garanzie e durata dei profili di alluminio normalmente utilizzati per gli infissi in alluminio.
Al fine di garantire il perfetto accoppiamento dei Pannelli con i profili di alluminio, le lamiere vengono verniciate in qualsiasi impianto di verniciatura a richiesta del cliente, senza oneri aggiuntivi.

FINITURA IN RENOLIT
Le lamiere vengono rivestite con un film in PVC Renolit per le applicazioni su profili in PVC, nei vari colori e finiture.

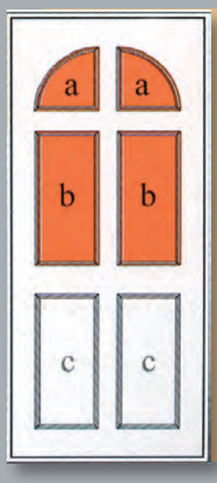
GLI INSERTI IN MAIOLICA



D. Brevetto N. RG99H000002

Il ricercato design e l'alta tecnologia dei pannelli bugnati "Solaria", insieme alla vastissima gamma di colorazioni e all'eleganza delle maioliche decorate a mano, consentono un inserimento armonico in ogni ambiente, sia classico che moderno.
L'alta qualità dei materiali utilizzati, lamiera di alluminio 12/10 con verniciatura a polvere certificata, l'anima in MDF di primissima scelta, garantiscono il massimo in termini di affidabilità risolvendo qualsiasi problema di manutenzione nel tempo.

The sought-after design and high technology of the Bugnati "Solaria" panels together with the vast range of colors and the elegance of the hand decorated majolica, allow a harmonic adaptability in every environment, both classical and modern.
The high quality of the materials used, 12/10 aluminium plates with certified dust painting and the soul in first-quality MDF, guarantees the maximum in terms of reliability; resolving any problem of maintenance in time.



Come ordinare i pannelli

Collezione **Barocco**

Sistema e modelli brevettati

Collezione **Barocco**

Ancora una volta i bugnati **Solaria** danno il meglio di sè con una nuova gamma di modelli dal design assolutamente innovativo: la **Collezione Barocco**.

Coniugare la solidità e l'inalterabilità dell'alluminio con la pregevolezza di un prodotto raffinato ed elegante è stato da sempre l'obiettivo della nostra ricerca.

Oggi i nostri sforzi sono stati ampiamente ripagati con la produzione di un bugnato degno di essere utilizzato nelle più ricercate composizioni architettoniche.

La morbidezza e l'eleganza delle forme rendono la **Collezione Barocco** il fiore all'occhiello della nostra produzione e della Vostra casa.
